

Intelligent Bio Solutions' Innovative Drug Screening Technology Now Offered in New Zealand

October 24, 2023

NEW YORK, Oct. 24, 2023 (GLOBE NEWSWIRE) -- [Intelligent Bio Solutions Inc.](#) (Nasdaq: INBS) ("INBS" or the "Company"), a medical technology company delivering intelligent, rapid, non-invasive testing solutions, today announced its expansion into the New Zealand market, representing a significant milestone in the Company's growth strategy for its [Intelligent Fingerprinting Drug Screening System](#).

Drug-related harm in New Zealand equates to a staggering \$1.9 billion each year¹, with significant societal consequences across communities, workplaces and more. New Zealand employers have a responsibility under the Health and Safety in Employment Act 1992 (HSE Act) to ensure the provision of a safe workplace and take all reasonable measures to safeguard employees while at work². The HSE Act further requires significant hazards to employees, such as the behaviour of an employee affected by alcohol or drugs, to be eliminated, isolated and minimized³. The Company's Intelligent Fingerprinting Drug Screening System, which uses fingertip sweat to screen for common drugs of abuse, helps employers to fulfil these legal obligations by offering an efficient, dignified, and non-invasive alternative to traditional and more intrusive point-of-care drug testing methods.

Harry Simeonidis, President and CEO of Intelligent Bio Solutions, said, "We are delighted to announce our expansion into New Zealand and observe another key growth milestone. Our primary focus is to meet the screening needs and support the health and safety initiatives of businesses across New Zealand and around the world. Drawing on our success in Australia over the past six months, we aim to continue this progress in New Zealand and other markets by offering an alternative and innovative solution that places a strong emphasis on operational efficiency, fitness for duty, and employee privacy and dignity."

The Company's Intelligent Fingerprinting Drug Screening System is currently available throughout Australia, the United Kingdom, South America, and parts of Europe and Asia, including Spain and Nepal. In addition to these locations, the Company's growth plan includes further expansion throughout Asia Pacific, the United States and Canada.

About Intelligent Bio Solutions Inc.

Intelligent Bio Solutions Inc. (the "Company") (Nasdaq: INBS) is a medical technology company delivering intelligent, rapid, non-invasive testing solutions. The Company believes that its Intelligent Fingerprinting Drug Screening System will revolutionize portable testing through fingerprint sweat analysis, which has the potential for broader applications in additional fields. This hygienic, and cost-effective system is designed to screen for recent use of drugs commonly found in the workplace, including opioids, cocaine, methamphetamine, and cannabis. With sample collection in seconds and results in under ten minutes, this technology would be a valuable tool for employers in safety-critical industries. Additionally, the Company's biosensor platform has the potential to test for up to 130 indications, ranging from glucose to immunological conditions and communicable diseases. The Company's current customer segments include construction, manufacturing and engineering, transport and logistics firms, drug treatment organizations, and coroners.
